Judges

The Court, having reviewed defendant-appellant's Notice and Demand for oral argument, and treating the demand as a motion for oral argument, hereby DENIES the motion as moot, the opinion in this case having been issued on July 21, 2011. However, we note that defendant-appellant was not entitled to oral argument because he did not request oral argument on the cover page of his brief as required by MCR 7.212(C)(1) and 7.214(A).
