The Court orders that the motion to remand pursuant to MCR 7.211(C)(1) is DENIED. Defendant-appellant has not shown error by the trial court in denying his request for an evidentiary hearing on whether his counsel was ineffective with regard to the change in the defense strategy, including whether defendant-appellant would testify. Defendant-appellant has also not shown that he can overcome the presumption that his counsel made sound strategic decisions with regard to the defense's theory, even though defendant-appellant has since identified witnesses that he claims could have supported an alibi defense.
