Docket No. 316835

The Court orders that the motion to remand pursuant to MCR 7.211(C)(1) is DENIED. Defendant-appellant has not properly supported his motion with affidavits or offers of proof to demonstrate how the record would be developed on many of his arguments. Defendant-appellant concedes that other arguments regarding his counsel's performance may be reviewed based on the existing record. Therefore, remand for either further factual development of the record or an initial ruling by the trial court regarding counsel's performance is not necessary in order for this Court to review defendant's issues on appeal.
