The Court orders that the motion to remand is DENIED for failure to persuade the Court of the necessity of a remand at this time because defendant's arguments as to the scoring of certain sentencing guidelines variables are based on the existing record and do not require further factual development for consideration by this Court. However, we note that, by bringing the present motion, defendant has preserved the issues as to the scoring of sentencing guidelines variables that are raised in the motion for full appellate review by the case call panel. MCL 769.34(10); MCR 6.429(C).
