Docket No. 322653

LC No. 14-039775-FC

---

The Court orders that the motion to remand is DENIED for failure to persuade the Court of the necessity of a remand at this time because defendant's challenge to the scoring of offense variable 4 of the sentencing guidelines is based on the existing record and does not require further factual development for consideration by this Court. However, we note that, by bringing the present motion, defendant has preserved this issue for full appellate review by the case call panel. MCL 769.34(10); MCR 6.429(C).
