The Court orders that in lieu of granting the delayed application for leave to appeal, this case is REMANDED to the trial court to provide defendant relief as required by this order. MCR 7.205(E)(2). First, as required by MCL 771.14(6), the trial court shall direct that an amended presentence report be prepared that completely omits the information that the trial court has already determined should be stricken from the presentence report. It is insufficient for the trial court to merely have crossed out that information in the presentence report while still leaving it visible. Further, the trial court shall enter an amended judgment of sentence without the inaccurate statement that the due date for the payment of attorney fees required of defendant was December 18, 2014.

We do not retain jurisdiction.
