

Court of Appeals, State of Michigan

ORDER

Larry McNeal Stovall v Douglas A Springstead

Docket No. **328789**

LC No. **15-000047-NM**

Michael J. Talbot, Chief Judge, acting under MCR 7.203(F)(1), orders:

The claim of appeal is **DISMISSED** for lack of jurisdiction because it is not taken from an actual judgment or order of the lower court. MCR 7.203(A). Particularly, the claim of appeal indicates that it is taken from an order granting summary disposition entered on July 31, 2015. However, from review of the lower court register of actions, it is apparent that, while a motion hearing was held on that date with the lower court directing appellees' counsel to prepare an order, no such order had actually been entered by the lower court by August 10, 2015, the date the claim of appeal was filed.

The motions to waive fees and extend time to cure the defect in the filing are also **DISMISSED** as moot.
