

Court of Appeals, State of Michigan

ORDER

Alfornice C Manzie v Jacqueline R Manzie

Docket No. **327592**

LC No. **11-103268-DO**

Michael J. Talbot, Chief Judge, acting under MCR 7.203(F)(1), orders:

The claim of appeal is DISMISSED for lack of jurisdiction because review of the record reveals that the claim of appeal was not timely filed in relation to the February 18, 2015, order granting defendant's request for attorney fees, the only post-judgment order from which there was an appeal of right. See MCR 7.203(A)(1) and MCR 7.202(6)(a). The claim of appeal filed on May 14, 2015, was not timely in relation to the February 18, 2015, order granting defendant's request for attorney fees because it was not filed within 21 days after entry of the March 27, 2015, order deciding the plaintiff's timely motion for reconsideration of the February 18, 2015, order. See MCR 7.204(A)(1)(b). The motion for reconsideration that was filed after entry of the March 27, 2015, order could not further extend the jurisdictional time limit. At this time, appellant may seek to appeal only by filing a delayed application for leave to appeal under MCR 7.205(G)(5).
