---

The Court orders that the motion to remand pursuant to MCR 7.211(C)(1) is DENIED WITHOUT PREJUDICE to the case call panel's review of the issues on appeal. However, because some of defendant-appellant's arguments involve the contents of the search warrant and the affidavit in support of the search warrant and it does not appear that those documents were made a part of the trial court record, the Court will allow defendant-appellant to expand the record to include those documents for purposes of reviewing his issues on appeal.
