

**Court of Appeals, State of Michigan**

**ORDER**

**People of MI v Arthur Joseph Rouse**

Docket No. **332033**

LC No. **2015-012184-FH**

---

Michael J. Talbot, Chief Judge, acting under MCR 7.201(B)(3), orders:

The delayed application for leave to appeal is DISMISSED for failure to pursue the case in conformity with the rules. MCR 7.201(B)(3) and 7.216(A)(10). The Clerk of this Court provided notice regarding the nature of the defects in this filing, and the defects were not corrected in a timely manner by providing this Court with five copies of the judgment of sentence and proof of service of the application for leave to appeal on appellee. Dismissal is without prejudice to whatever other relief may be available consistent with the Court Rules. The Court notes that defendant-appellant's inconsistently captioned "Appeal By Right and Application for Leave to Appeal" was reasonably treated by the Clerk's Office as a delayed application for leave to appeal where it is manifest that he lacks an appeal of right in this case involving a plea-based conviction. MCR 7.203(A)(1)(b).

The motions for immediate consideration, peremptory reversal, and bond are STRICKEN because defendant-appellant has not paid the motion fees for those motions or filed a motion to waive fees. This Court's records for this file do not reflect an attempt to pay the motion fees.
