Docket No. 332283

The Court orders that the motion for reconsideration is DENIED. Contrary to appellant's position, it is clear that the March 23, 2016 order is a district court order where it has a district court number and is signed by the same district court judge who signed the judgment of sentence in the district court file. It may be that the district court judge denied a request for court-appointed counsel to pursue an appeal to the circuit court in the March 23, 2016 order but that would not make that order a circuit court order. However, if the March 23, 2016 order were somehow considered to be a circuit court order, it still would not be appealable of right to this Court because a circuit court order entered on appeal from another court is not appealable of right.
