

Court of Appeals, State of Michigan

ORDER

In re Robia Ismail Baydoun RPH

Docket No. **336696**

LC No. **16-009417**

Michael J. Talbot, Chief Judge, acting under MCR 7.203(F)(1), orders:

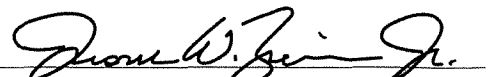

The claim of appeal is DISMISSED for lack of jurisdiction because the January 5, 2017 order is not appealable to this Court. While MCL 333.16237(6) provides for an appeal of right to this Court from an order of a disciplinary subcommittee imposing a penalty on a health professional, there is no provision for an appeal to this Court from an order of a health profession board denying an application for reinstatement of a professional license.
