ORDER

In re Reliability Plans of Electric Utilities for 2017-2021

Docket No. **340600**

LC No. **00-018197**

Michael F. Gadola, Judge, acting under MCR 7.211(E)(2), orders:

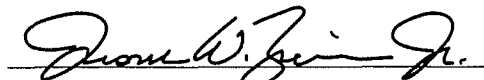

The motion for immediate consideration of the motion to expedite this appeal is DENIED. Because the motion to expedite seeks ultimate resolution of this appeal by December 2018 that motion is not so urgent as to require immediate consideration. Further, in the interest of judicial economy, the motion to expedite will be held for submission to a motion panel of this Court together with the pending motion to dismiss this appeal.
