Re: **People of MI v Derrick Alden Johnson**

Docket No. **328443**

LC No. **08-001534-FC**

Pursuant to MCR 2.003(D)(3)(a)(i), the motion to disqualify Judge Jane M. Beckering “and the entire panel” has been referred to the Chief Judge, and upon de novo review, it is DENIED. The allegations contained in plaintiff’s motion and affidavit either set forth conclusory assertions regarding legal decisions made or not made by Judge Beckering and the panel, or are conclusory factual assertions that are, at best, hearsay. None of these legal or factual assertions set forth a ground for disqualification under MCR 2.003(C), and therefore defendant has presented no basis for disqualifying Judge Jane M. Beckering or any other judge assigned to his appeal
