The Court orders that the motion to remand is DENIED for failure to persuade the Court of the necessity of a remand at this time. Defendant's vague reference in the motion to see his brief on appeal with regard to his request for a remand as to his claims of ineffective assistance of counsel is not a reasonable presentation of a request for a remand as to those issues. However, we note that defendant has preserved his issue regarding judicial factfinding in scoring offense variables of the sentencing guidelines for full appellate review by the case call panel by bringing the present motion. MCL 769.34(10); MCR 6.429(C).
