The Court orders that the motion to lift stay is GRANTED. In our November 21, 2019 opinion remanding this matter, exercising our authority of MCR 7.215(F)(2), the trial court was directed to immediately take steps to effectuate our ruling regarding vaccinations. The trial court having failed to comply with this direction, this Court now clarifies that our November 21, 2019 opinion is given immediate effect. MCR 7.215(F)(2). Within seven days of the date of this order, the trial court shall enter an order requiring defendant to produce a letter from the child's current pediatrician addressing (1) any vaccinations the child has already received, (2) the dates any vaccinations were administered, and (3) the vaccinations that are recommended for the child as of the date of this order. Within seven days of receiving the pediatrician's letter, the trial court shall enter an order directing that the child be vaccinated in conformance with the pediatrician's recommendations, and the trial court's order should further provide that the course of vaccination must begin within 14 days of the trial court's order.
