The Court, acting under MCR 7.203(F)(2), orders that the motion for reconsideration is DENIED. Appellant has cited no legal authority that the claim of appeal filed January 9, 2008, was timely filed. In terms of appellant's equitable argument the Court would note that when filing the first claim of appeal the appellant failed to initially provide register of actions and the order being appealed. When finally providing register of actions the last entry was November 15, 2007. It showed the motion for reconsideration being filed prior to the claim of appeal on November 9, 2007, but did not show any disposition of that motion. In addition, the appellant never notified the Court of the November 29, 2007 order until filing this second claim of appeal 41 days later on January 9, 2008. Appellant also never filed a motion for reconsideration of the order entered in docket number 282120. Any appeal by appellant must be by application for delayed appeal.
